SUPPLIER REFERENCE - DRAFT COMPOSITION

Organisms listed for Digester.

The table follows the supplier documents. Concentrations and product-specific functions are not included in this review.

Trichoderma harzianum	Fungus
Aspergillus niger	Fungus
Streptomyces lydicus	Actinomycete
Penicillium radicum	Fungus

Product functions and performance claims are not included in this review.

BEFORE A RECOMMENDATION

Tell us about the crop residue.

Tell the team what was harvested, how much residue is present and when the next crop is planned. Digester suitability and directions still need confirmation.

WHAT TO REVIEW

Which layout should we develop?

Which cover makes the product easiest to recognise?

Is the product explained clearly before the technical reference?

Would the shorter version be useful in a grower conversation?

Which parts would you keep, combine or change?

Illustrative image only. It does not show a Digester trial result.

BEFORE GROWER USE

Technical details still to confirm.

The technical details still need checking. This review does not provide directions for use.

DESIGN REVIEW EDITION

Product details still need checking. No application directions are included.

CONTENT AREA	REVIEW EDITION	FINAL COPY
Crops and residue types	Not included	Pending confirmation
Application directions	Not included	Pending confirmation
Preparation and mixing	Not included	Pending confirmation
Storage and handling	Not included	Pending confirmation
Supply details	Not included	Pending confirmation

BROCHURE REVIEW

Choose the layout. Then check the product details.

Choosing a layout does not approve the product directions or make this a finished grower brochure.

Source reference: Great Southern Biology. Brochure concept prepared by Hybrid-Ag.

Supplier documents remain unchanged. Application directions are not included in these review editions.
