

DIRECTION B - RESIDUE-LED

Crop residue after harvest.

Mycro-Tec Digester
Brochure design concept

IMAGERY AND READING ORDER

01

Crop imagery

Illustrative cover treatment.

02

Crop imagery

Use scope remains pending.

03

Crop imagery

Illustrative cover treatment.

Design concept only. Crop images do not confirm product use on every crop shown.

VISUAL PRODUCT EXPLANATION

Start with the residue.

01

Crop residue

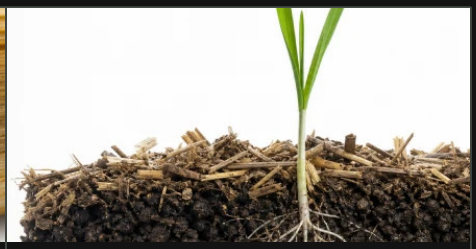

Illustrative image.

02

Plant material

Illustrative image.

03

Following crop

Illustrative image.

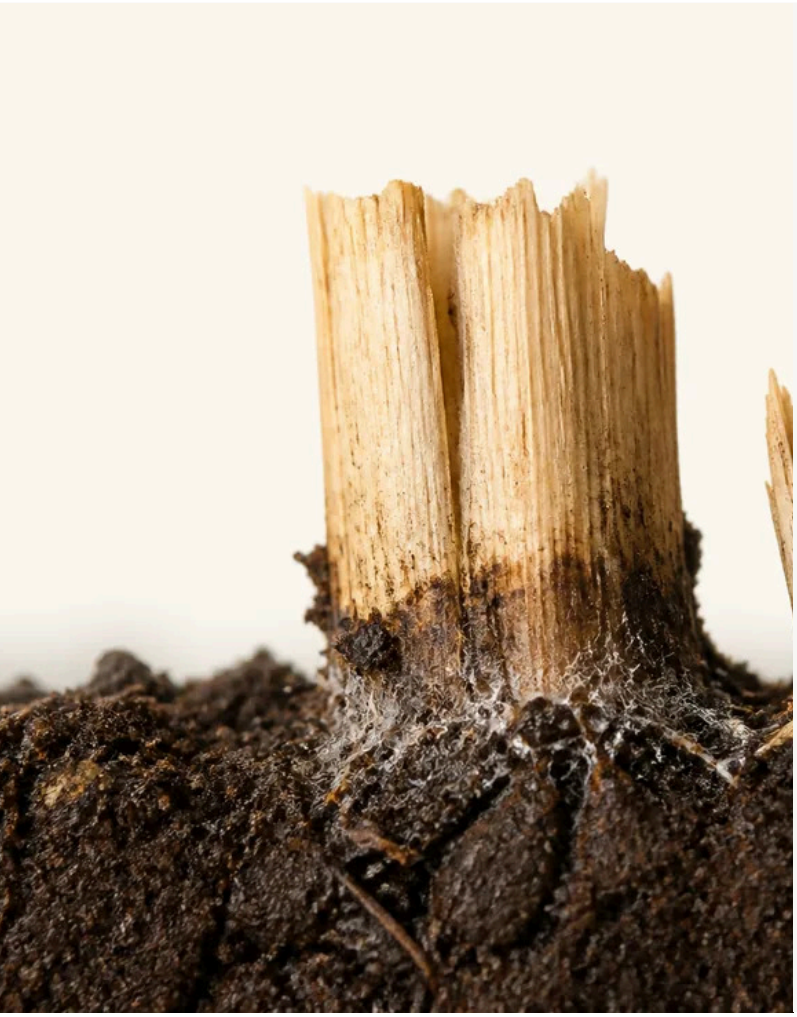

SUPPLIER REFERENCE - DRAFT COMPOSITION

The organisms listed in the source material.

Names and organism types are shown for layout review. Concentrations and product-specific functions are withheld.

Trichoderma harzianum	Fungus
Aspergillus niger	Fungus
Streptomyces lydicus	Actinomycete
Penicillium radicum	Fungus

Product functions and performance claims are withheld in this design review edition.

READING ORDER

Explain the product in grower terms.

This direction gives the residue story more space before the technical reference. The final product explanation remains subject to review.

WHAT TO REVIEW

Which version would you hand to a grower?

Which cover makes the product easiest to recognise?

Does the reading order make sense before the technical detail?

Would the shorter version give the sales team enough room to explain the product?

Which parts would you keep, combine or change?

Image used to review the page layout. It is not a product trial result.

REFERENCE PAGE - COPY PENDING

Space for the final technical reference.

This edition lets us review the information layout while the product directions are checked. No use recommendation is supplied here.

DESIGN REVIEW EDITION

Technical copy is pending. This edition contains no application directions.

CONTENT AREA	REVIEW EDITION	FINAL COPY
Crop and residue scope	Not included	Pending confirmation
Application directions	Not included	Pending confirmation
Preparation and product use	Not included	Pending confirmation
Handling information	Not included	Pending confirmation
Supply details	Not included	Pending confirmation

BROCHURE DIRECTION

Review the structure. Finish the technical copy next.

Layout feedback does not approve the product directions or clear the brochure for grower use.

Source reference: Great Southern Biology. Brochure concept prepared by Hybrid-Ag.

Original source documents remain unchanged. These separate review editions deliberately withhold technical directions.
