DIRECTION C - COMPACT REFERENCE

Mycro-Tec Digester

Crop residue after harvest.

A shorter handout, bringing the product introduction and draft composition onto one page.

DESIGN REVIEW EDITION

Technical copy is pending. This edition contains no application directions.

SUPPLIER REFERENCE - DRAFT COMPOSITION

The organisms listed in the source material.

Names and organism types are shown for layout review. Concentrations and product-specific functions are withheld.

Trichoderma harzianum	Fungus
Aspergillus niger	Fungus
Streptomyces lydicus	Actinomycete
Penicillium radicum	Fungus

HYBRID-AG PRESCRIPTION APPROACH

Plan the nutrition for the next crop.

Bring your existing test results and crop details. The team can discuss the nutrition requirement and any prescription blend required.

REFERENCE PAGE - COPY PENDING

Space for the final technical reference.

This edition lets us review the information layout while the product directions are checked. No use recommendation is supplied here.

DESIGN REVIEW EDITION

Technical copy is pending. This edition contains no application directions.

Crop and residue scope	Not included	Pending confirmation
Application directions	Not included	Pending confirmation
Preparation and product use	Not included	Pending confirmation
Handling information	Not included	Pending confirmation
Supply details	Not included	Pending confirmation

BROCHURE DIRECTION

Review the structure. Finish the technical copy next.

Layout feedback does not approve the product directions or clear the brochure for grower use.

Source reference: Great Southern Biology. Brochure concept prepared by Hybrid-Ag.

Original source documents remain unchanged. These separate review editions deliberately withhold technical directions.
